

Women in Transplantation 2023 – RESEARCH FELLOWSHIP GRANTS

Women in Transplantation 2023-2025 Fellowship Grant Application Cover Sheet

Applicant Details

1. Name:

2. Institution & Address:

3. Contact Information:

a. Email address

b. Telephone number

c. Other (Skype, Whatsapp, etc)

4. WIT membership confirmed (yes/no) – this is mandatory YES NO

5. TTS membership confirmed (yes/no) YES NO

Mentor Details

6. Name:

7. Title:

8. Institution & Address:

9. Contact Information

a. Email address

b. Telephone number

c. Other (Skype, Whatsapp, etc)

10. WIT membership confirmed (yes/no) – this is mandatory YES NO

11. TTS membership confirmed (yes/no) – this is mandatory YES NO

Women in Transplantation

2023 — RESEARCH FELLOWSHIP GRANTS

Abstract of the Research Proposal

This statement should concisely summarize the project in **400 words or less**, and should introduce the project and note its relevance to transplantation. It should describe the long-term objectives and specific aims, research design, and methods for achieving these goals.

- Enter Abstract Here:

Proposed Research Plan

NB: this section is limited to 5 pages maximum (not including references), and should be completed in Font size 12, Times New Roman, single spacing, 2cm margins

1. The following sections **MUST** be included:

- Introduction: provide the rationale for the research
- Aims: clearly state the specific aims of the study and the hypothesis or hypotheses being tested
- Preliminary Results (if any): show preliminary results supporting the research plan
- Research Plan: explain the experimental design and the methods that will be used to achieve the study objectives. Anticipated results and potential pitfalls and alternative approaches should be briefly discussed.
- The research plan should include a description of relevant facilities/capabilities

- Please attach research proposal separately – only the first five (5) pages will be reviewed. Additional pages will be removed.

Mentor Narrative

NB: this section should not exceed 3 pages and should include:

- A description of the training program in addition to research project itself.
- A description of the mentor's background in supervising the research and training of students and postdoctoral fellows.
- The role of the applicant in the project.
- A description of the role of the applicant in preparing the application. A significant role in writing the application is highly encouraged, although input from the mentor is expected. For international applicants not yet in the lab, it is understood that the PI will play a large role in writing the application.
- The mentor's description of the applicant's experience and performance, future potential, and the degree of previous interaction with the applicant.
- An explanation of any mitigating or additional factors that need to be considered in terms of eligibility (e.g. account of extra years or a change in research field).
- The mentor must specify whether he/she is a recipient or sponsor of another Women in Transplantation fellowship grant
- A guarantee of minimum of 75% of the applicant's time protected for research.

- Please attach mentor narrative separately – only the first three (3) pages will be reviewed. Additional pages will be removed.
