Welcome

3rd ISUTx State of the ART Meeting

Paris October 21 - 2022

The International Society of Uterus Transplantation (ISUTx) is delighted to announce its **3rd State-of-the art meeting** on uterus transplantation in **Paris, France**, to be held on **Friday October 21, 2022**.

The field of uterus transplantation has been rapidly expanding ever since the first live birth in 2014. Today almost 100 uterus transplantation procedures have been performed, with more than 40 babies born.

Live births have occurred on four continents, and more than 20 centers worldwide are conducting clinical trials within the field. In 2016, ISUTx was founded, and since then the organization have had yearly international meetings. In 2021 The Transplantation Society was privileged to welcome ISUTx as its 10th Official Section.

The ISUTx meeting in Paris will be held from **13:00 to 19:00 CET**, on Friday October 21. The UTx meeting in 2022 will be held at Hospital Foch in Paris

This meeting will be **free of charge** and open to all interested members within ISUTx, TTS, and all TTS Sections.

The chairman of the local organizing committee, Pr Jean-Marc Ayoubi and the ISUTx president, Pr Jiri Fronek, welcome all interested professionals. The all-encompassing and exciting program will cover topics such as robotic surgery in uterus transplantation, rejection diagnosis, assisted reproduction in uterus transplantation, as well as long term medical and psychological effects for donors, recipients and children. An update from the international uterus transplantation registry of ISUTx will also be presented. There will be ample time to meet professionals with clinical experience in uterus transplantation in a networking capacity, as well as the opportunity to meet leaders in this dynamic and expanding field at a meet-the-professors' brunch.

We welcome delegates with any professional interest in uterus transplantation. You and your team can be in the planning stage, starting stage or clinical trial phase of uterus transplantation.

For more information, please reach out to Katie Tait, ISUTx Section Manager at TTS (katie.tait@tts.org) or go to **<https://tts.org/isutx-home>** where details of Registration will be posted.

We look forward to welcoming you to Paris in October!

Sara Brucker
Elected president

Jiri Fronek
President of ISUTx

Mats Brännström
Past president of ISUTx
