

IPITA Young Investigator Committee (YIC) Bulletin

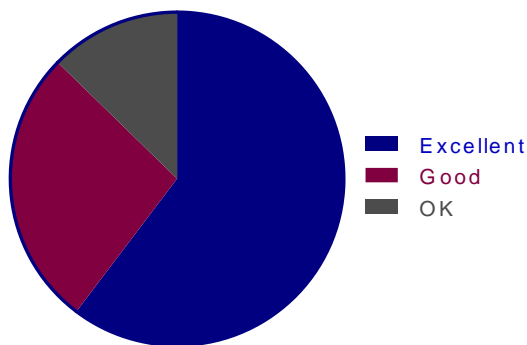

Thank you to all the islet and pancreas transplantation young investigators of the world for making IPITA 2017 a congress to remember!

A survey was sent out to all young investigator attendees last year to gauge your opinions of the IPITA 2017 congress and how young investigators may be better involved next time.

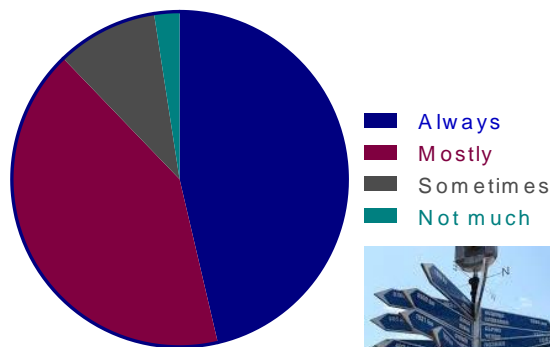

The response rate was 60%. Below is a summary of the results :

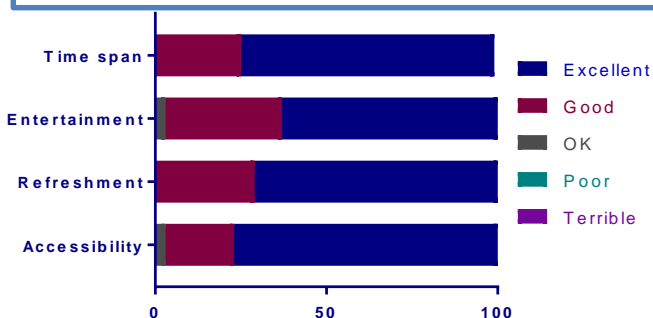

How well did IPITA 2017 cater for young investigators?

Were YIC members and young investigator events visible and accessible?

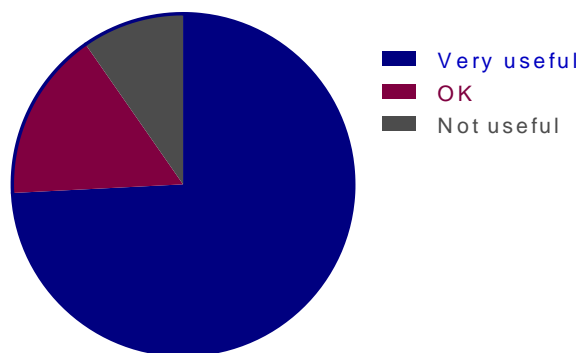

How was the young investigator social event (networking boat trip)?

Around 100 people attended the sunny summer evening boat trip!

Was the young investigator pre-congress symposium useful?

90 registrations were received for the YI symposium

Thanks for your valuable feedback!
