

2027 International Congress of the Cell Transplant and Regenerative Medicine Society (CTRMS) **Request for Letters of Intent**

The Cell Transplant and Regenerative Medicine Society exists to be the leader in developing and translating, safe cellular and regenerative therapies to patients. The Society will promote research, collaboration and focus on regulatory matters, as they relate to clinical translation.

Mission Statement

Our mission is to lead the development and delivery of safe, innovative **cellular and regenerative therapies** to improve patients' health. We bring together a global community of experts in the field, thus creating a robust platform for scientific advancement. Our extensive network supports and promotes collaborative research, educational initiatives, and exchange opportunities among scientists and clinicians from academia and industry. We are dedicated to facilitating the clinical translation of pioneering therapies and addressing the complex regulatory issues that accompany these advancements.

Objectives

Foster Research and Collaboration:

- Welcome all fields of research focused around cell therapy.
- Promote interdisciplinary networking among researchers, clinicians, and industry professionals.
- Organize bi-annual international meetings and focused events on cutting-edge scientific developments.

Define and Disseminate Standards:

- Publish position papers, consensus statements, and guidelines on advanced translational technologies.

Advance Basic and Applied Research:

- Support and encourage basic research in cell therapy.
- Drive the development of enabling technologies to enhance cell therapy applications.

Navigate Regulatory Aspects:

- Engage with stakeholders and key regulatory authorities.
- Address and clarify regulatory issues related to cell therapy.
- Provide guidance on compliance with regulatory requirements.

Educational Initiatives:

- Develop educational programs and resources to disseminate knowledge on cell therapy.

Support Career Development:

- Facilitate early career development through mentoring opportunities and professional growth programs.

Every two years, the CTRMS World Congress brings together clinicians, scientists, researchers, health professionals and students from all parts of the world in the field of cell transplant and regenerative medicine. Through plenary lectures, oral presentations and rapid-fire sessions, the very latest advances in the field are introduced and discussed while developing collaborative connections.

Our next Congress will take place on October 22-25, 2025 in Tokyo, Japan. We anticipate about 200-300 delegates to attend in person.

Your Letter of Intent should include a brief description of the following:

- Designation and Description of the proposed Local Organizing Committee (LOC)
- Description of the proposed host city
- Proposed dates
- Proposed venue possibilities
- Travel information
- Proposed hotel accommodations
