

## SPLIT – Attestation form for MOC Part IV Credit

### MOC Member Attestation

This attestation must be completed and submitted by members seeking Maintenance of Certification (MOC) Part IV credit from one of the American Board of Medical Subspecialties (ABMS) Member Boards participating in the Portfolio Program. To be granted credit, the member must be an active SPLIT member and have satisfied at least one meaningful participation requirement from #1-#5. The attestation must also be cosigned by the project leader or QICC committee member.

The completed and signed attestation will be retained in project files. SPLIT will notify the ABMS of members' QI project completions and the ABMS forwards completion data to the appropriate ABMS Member Boards. (The ABMS receives only documentation of your successful completion of the project and identifying information to ensure your member board record is accurately updated. No patient data, performance data, or project reports are sent to the ABMS, nor does the ABMS receive your attestation form or any attachments.)

#### Section 1: Participant Information:

1. Last name, First name, MI:
2. Date of Birth:
3. Email address:
4. Certifying Board(s):
5. Board Identification Number:
6. MOC cycle end date for each board/certificate:
7. NPI number:

#### Section 2: Description of Quality Improvement Project

1. Project Title:
2. Beginning Date of your Participation in the Project:
3. End Date of your Participation in the Project:

#### Section 3: Reflection

1. Please share a summary that describes how you participated in the project and summarize the important successes, difficulties, and learnings you encountered from the project.

## Meaningful Participation Requirements

There are multiple ways for a member to earn MOC Part IV credit. The member must have an active SPLIT membership AND

1. Be engaged in the development of or participation in a QI project to completion of the project or for at least 6 months in an ongoing project; OR
2. Submit a poster of a completed QI project that has been presented at a meeting. This should include all the data about the design, outcome, and lessons learned from the project; OR
3. Participate in the QICC committee for at least 6 months with regular attendance on conference calls and discussion of active QI projects since the committee actively reviews project proposals and provides recommendations for project improvement and oversees QI projects; AND
4. Formally review projects and provide guidance/feedback about the design; OR
5. Participate in data analysis/interpretation even if not involved in the initial design or concept; AND
6. Personally reflect on the project and its impact on individual practice in the attestation form.

For a member to earn MOC Part IV credit, the member must have an active SPLIT membership AND

### Section 4: Signature

1. Member Signature: I attest that I participated in this QI Project as described above:
