

## Key Dates

### Abstract

#### Submission Deadline:

March 19, 2026  
 (23:59 EST)

#### Acceptance Notification:

June 08, 2026

### Presenter

#### Registration Deadline:

June 23, 2026

# Call for Abstracts!

## Share Your Science. Shape the Future of Transplantation.

The Transplantation Society (TTS) invites the global transplantation community to submit abstracts for presentation at TTS 2026, the premier international forum for transplantation science, medicine, and innovation.

TTS 2026 will bring together world leaders, early-career investigators, and multidisciplinary professionals to exchange knowledge, foster collaboration, and advance transplantation outcomes worldwide.

Submitting an abstract may qualify you for prestigious TTS awards designed to recognize excellence and support participation in the Congress. Up to \$40,000 in awards is available, subject to eligibility requirements.

## Abstract Submission

Abstracts must be submitted online via the official TTS 2026 abstract portal.

Full submission instructions, categories, policies, and requirements:  
[www.tts2026.org/program/call-for-abstracts](http://www.tts2026.org/program/call-for-abstracts)

Accepted abstracts by a presenter registered to attend the congress will be published in an online supplement of the *Transplantation Journal*.

Up to 1,000 oral presentation opportunities

## Why You Should Attend

- **Present** original research to an international transplantation audience
- **Engage** with global experts across basic, translational, and clinical science
- **Foster** collaboration across disciplines, regions, and career stages
- **Explore** emerging science and innovations shaping transplantation practice

## Who Should Attend

TTS 2026 welcomes professionals from across the transplantation ecosystem, including:

- Basic, translational, and clinical transplantation scientists
- Transplant physicians, surgeons, and clinical investigators
- Allied health professionals involved in transplantation care and research
- Trainees, fellows, residents, and early-career investigators
- Researchers and professionals engaged in data science, digital health, and innovation
- Individuals involved in transplantation policy, systems, and equity research

# Awards & Recognition Opportunities

Submitting an abstract may qualify you for prestigious TTS awards designed to recognize excellence and support participation in the Congress.

## Congress Scientific Awards

**Award application deadline:**

**April 25, 2026**

These awards help offset the cost of attending TTS 2026 and recognize outstanding scientific contributions.

**Eligibility highlights:**

- Submission of at least one abstract as **presenting author**
- Applicant must be **a trainee, fellow, PhD student, allied health professional, or a resident of an emerging economy**
- **TTS membership required**  
(non-members may apply for membership)

More awards information:

[www.tts2026.org/program/awards/tts-scientific-congress-awards](http://www.tts2026.org/program/awards/tts-scientific-congress-awards)

## TTS-ISOT La Renon International Basic and Clinical Sciences Mentee-Mentor Awards

**Application deadline:**

**April 27, 2026**

ISOT, TTS and La Renon, celebrates the **contributions of basic and clinical science** to the field of transplantation. The award recognizes the efforts of scientists who have advanced our understanding of transplantation science/immunobiology and/or treatment of transplant recipients and the young investigators who will be the future leaders in our field.

**Eligibility highlights:**

- Mentee: graduate student or post-doctoral trainee (within 5 years of degree)
- Mentor: established basic scientist
- Both must be **active members of TTS and ISOT**
- Both must be authors on the **same accepted abstract**
- Awards presented during a dedicated Congress event
